

VICTOR CHIORESCU

QA AUTOMATION ENGINEER | SOFTWARE DEVELOPMENT ENGINEER IN TEST (SDET)

victorchiorescu@outlook.com | (448) 238 1684 | Miramar Beach, FL | [Victor. LinkedIn](#) | US Citizen

PROFESSIONAL SUMMARY

QA Automation Engineer / Software Development Engineer in Test (SDET) with over 6 years of experience in the IT industry delivering reliable, high-quality software. Strong background in automation testing, API testing, CI/CD pipelines, and Agile environments. Experienced in building and maintaining automation frameworks, increasing test coverage, and identifying defects early. Works closely with development and product teams to support smooth releases and stable applications. Highly motivated to contribute technical skills, learn new technologies, and add value to a fast-paced IT organization. Actively seeking an opportunity to grow, take ownership, and support quality-driven teams.

PROFESSIONAL EXPERIENCE

Chewy – Plantation, FL November 2024 to Present

Software Development Engineer in Test (SDET)

- Design, develop, and maintain automated test frameworks using Java, Selenium WebDriver, TestNG, and Maven, along with Playwright using TypeScript and JavaScript for modern web application testing.
- Develop and execute automated and manual test cases to ensure the quality, performance, and reliability of web-based applications.
- Perform end-to-end UI automation testing using Playwright, as well as cross-browser testing to validate user workflows.
- Perform API testing using REST Assured and Postman to validate backend services and system integrations.
- Integrate automated test execution into CI/CD pipelines using Jenkins, supporting continuous testing and faster releases.
- Identify, document, and track defects using Jira, and collaborate closely with development teams to ensure timely resolution.
- Review functional and technical requirements to ensure full test coverage and accurate validation.

JPMorgan Chase & Co. – Tampa, FL

April 2022 to October 2024

QA Automation Engineer

- Developed and executed automated test scripts for enterprise web and client-server applications.
- Implemented Behavior-Driven Development (BDD) frameworks using Cucumber and Gherkin.
- Performed functional, regression, smoke, and integration testing across multiple software releases.
- Performed database testing using SQL and JDBC to ensure data accuracy and integrity.
- Conducted REST API testing using REST Assured and Postman to validate service functionality.
- Created and maintained test cases, test scenarios, and detailed test execution reports.
- Collaborated with developers and business analysts to clarify requirements and define testing scope.
- Contributed to the continuous improvement of QA processes and automation standards within Agile teams.

Healthfirst – Lake Mary, FL

January 2020 to April 2022

Test Automation Engineer

- Built and maintained automation test frameworks using Java and Selenium WebDriver.
- Executed manual and automated test cases for web-based healthcare applications.
- Performed functional, regression, and smoke testing to support application releases.
- Conducted API testing to validate application integrations and data flow.
- Documented test results and defects clearly to support quality improvement efforts.
- Worked closely with QA and development teams to ensure stable and reliable software delivery.
- Assisted with test data preparation and environment setup for test execution.
- Participated in knowledge-sharing sessions to improve overall team testing practices.

PROFESSIONAL TECHNICAL SKILLS

Automation & Testing

- Automation Testing
- Functional Testing
- Regression Testing
- Smoke Testing
- Positive and Negative Testing
- Test Design
- Test Scenarios and Test Cases

Tools & Reporting

- Jenkins (CI/CD)
- Git / GitHub
- Jira
- HTML Reports
- Cucumber JSON Reports

Methodologies & Life Cycle

- Agile / Scrum, Waterfall

- Software Test Life Cycle (STLC)

- Daily Standup Meeting
- Sprint Review Meeting
- Sprint Retrospective
- Sprint Demos

Programming & Frameworks

- Java
- JavaScript
- TypeScript
- Selenium WebDriver
- Playwright
- TestNG
- JUnit
- Maven
- Cucumber
- Gherkin
- Behavior-Driven Development (BDD)

- Page Object Model (POM)
- Object-Oriented Programming (OOP)

API & Backend Testing

- REST API Testing
- RESTAssured(Java)
- Postman
- Swagger
- API Validation using GET, POST, PUT, DELETE methods

Applications & Databases

- Web-based Applications
- Database Testing
- SQL, JDBC
- OracleDatabase
- HTML, CSS
- XPath

EDUCATION

Bachelor of Hospitality & Tourism Management

- Institute of International Relations of Moldova, Chisinau, Moldova

2008 – 2011
